

AGENDA

Times featured are local Athens time, or CET+1

MONDAY 27.01 | ATTICA HALL

OPEN

ADHW 2025 Opening Ceremony

Co-chairs | Opening Statements: **Christos N. Schizas, Panagiotis Bamidis, Niki Tsouma**

Addresses

Adonis Georgiades*, Minister of Health – Greece

Representative, Ministry of Health – Cyprus

Demetris Papastergiou*, Minister of Digital Governance – Greece

Constantinos S. Pattichis, Prof., President of National eHealth Authority – Cyprus

09:00-11:00

Ioannis Karagiannis, President, Hellenic eGovernment Center for Social Security Services, IDIKA S.A. - Greece

Keynote Speech

Christos N. Schizas - EHDS Regulation paving the European Health Union

Panel Discussion

The common European Health Vision and Values

**Invited, pending confirmation*

11:00-11:30

COFFEE BREAK

EDUCATION

Re-shaping the Health Sector landscape through Capacity Building | **Capacity Building / Education Track**

The Joint Master's course run by 3 EU Universities, "Managing the Digital Transformation in the Health Sector" is designed to manage the digitalization of health services, to promote the adoption of data science and information system resources to innovate clinical approach, services and to reorganize processes. In this track, details of the programme are presented by teachers and key staff of the 3 partner Universities (in Greece, Portugal, and Finland). Moreover, Artificial Intelligence (AI) and its importance in Healthcare will be highlighted with a discourse on AI regulation in Europe in conjunction with EHDS Regulation. A discussion is also sparked with MSc students currently attending the course online.

11:30-13:00

Moderator: **Maria Nikolaidou**, Aristotle University of Thessaloniki (AUTH)

Speakers / Panellists:

- Presentation of the Joint Master's program on Managing Digital Transformation in the Health Sector (ManagiDiTH) - **Panagiotis Bamidis**, AUTH
- Finnish experiences on the digitalization of healthcare and social welfare – **Outi Ahonen**, Laurea University of Applied Sciences, Finland
- Social partnering for Capacity Building in Health, Laurea University of Applied Sciences, Finland, ISCTE - Instituto Universitário de Lisboa, Portugal, Aristotle University of Thessaloniki, Greece, **Maria Nikolaidou**, AUTH
- ManagiDiTH experiences, qualifications and career development – **Anastasia Rodina-Theocharaki**, **Maria Ioannidou**, current ManagiDiTH students

Organised by ManagiDith & AUTH

13:00-14:00

LUNCH BREAK

Managing Digital Healthcare Transformation in the AI era and the EHDS Regulation | Capacity Building / Education Track

The Joint Master's course run by 3 EU Universities, "Managing the Digital Transformation in the Health Sector" is designed to manage the digitalization of health services, to promote the adoption of data science and information system resources to innovate clinical approach, services and to reorganize processes. In this track, details of the programme are presented by teachers and key staff of the 3 partner Universities (in Greece, Portugal, and Finland). Moreover, Artificial Intelligence (AI) and its importance in Healthcare will be highlighted with a discourse on AI regulation in Europe in conjunction with EHDS Regulation. A discussion is also sparked with MSc students currently attending the course online.

Moderator: **Panagiotis Bamidis**, *AUTH*

14:00-15:30

Speakers/panelists

- First year experiences from running the Joint Master's course, **Leonor Domingos/Maria do Carmo Gomes**, *ISCTE*
- Launching the new Call for Applications, **Vasiliki Pavlidou/Maria Nikolaidou**, *AUTH*

Widening the Digital Healthcare Transformation - Invited speakers

- Stakeholders' synergies for digital transformation, **Alexander Berler**, *HL7 Hellas*
- AI and its importance in Healthcare: Bias and Transparency, **Haralampos Karanikas**, *UTH*
- AI regulation in Europe and complementarity with EHDS Regulation, **Ioanna Michalopoulou**, *Attorney at Law*
- Achieving Transparency in Healthcare Systems with Explainable AI, **Constantinos S. Pattichis**, *NEHA Cyprus*

Organised by *ManagiDith & AUTH*

15:30-16:00

COFFEE BREAK

EDUCATION

Artificial Intelligence in the EHDS era | Capacity Building / Education Track

Moderator: **Nikos Iosif**, *HHI*

Keynote Speeches

- **Irene Agapidaki**, *Alternate Minister of Health, Hellenic Republic*
- **Joao Breda** - Artificial Intelligence in Health: The World Health Organization perspective

Speakers:

- What you wanted to know about AI but were afraid to ask, **Diomidis Spinellis**, *NTUA*
- The Plan for Greece's Transition to the Artificial Intelligence Era, **Timos Sellis**, *Athena Research Center*
- Artificial Intelligence in Healthcare: From Research to Practice, **Niki Tsouma**, *IDIKA S.A.*
- Artificial Intelligence in Healthcare: The Patient Perspective, **Georgios Kapetanakis**, *ELLOK*
- Ethics, Personal Data Security, and Regulatory Framework, **Apostolos Pontas**, *HHI*
- Technologies and Tools: How Artificial Intelligence Supports Medical Practice (Diagnosis - Treatment), **Dimitris Koutsouris**, *NTUA*
- Artificial Intelligence and Sensitive Data Security, **Athanasios Staveris**, *ToolsofTech*
- Artificial Intelligence and Education, **Georgios Dedousis**, *HUA*
- HHI perspective on the Integration challenges of Artificial Intelligence in Healthcare, **Maria Misendou**, *HHI*

16:00-18:00

Panel Discussion

Can Artificial Intelligence drive reform in the National Health System?

Moderator: **Irene Agapidaki**

Organised by *HHI*

Setting up the HL7 Hellas FHIR core Working Group

Moderator: **Nikos Kyriakoulakos**, *HL7 Hellas Secretary General*

FHIR Training – Building the Core & From Draft to Deployment

Introduction to HL7 FHIR in Greece (Brief Recap)

- a. Recap how FHIR fits into the national and EU digital health strategies.
- b. Link to the newly forming HL7 Hellas FHIR Core Working Group’s goals.

Training Part 1: “Building the Core: Developing Custom HL7 FHIR Profiles and Implementation Guides for Greece”

- a. Overview of FHIR Profiling: Key concepts, structure, and best practices.
- b. Methods to Create Greece-Specific Profiles: Mapping local requirements to FHIR resources.
- c. Implementation Guide (IG) Basics: Using IG Publisher and related tools.
- d. Discussion / Q&A.

Training Part 2: “From Draft to Deployment: Practical Techniques for Authoring, Testing, and Publishing FHIR IGs”

- a. Authoring IGs: Step-by-step drafting process, version control best practices.
- b. Validation & Testing: Tools (e.g., HL7 FHIR Validator) and continuous integration workflows.
- c. Publishing IGs: Strategies for documentation, updates, and stakeholder engagement.
- d. Lessons Learned & Real-World Examples: Possible guest speaker or discussion of best practices from other HL7 affiliate implementations.
- e. Concluding Q&A / Next Steps.

Wrap-Up & Action Items

- a. Summarize key takeaways from the training sessions.
- b. Outline how these learnings feed into the Working Group’s upcoming projects.

Organised by HL7 Hellas

MONDAY 27.01 | CONFERENCE I

16:00-18:00

CLOSED

Working Group Meeting Greece - Cyprus

Secondary use of Data

By invitation

OPEN

Xt-EHR High Level EHDS Summit | Plenary Session

Session Chair: **Christos N. Schizas**, *Xt-EHR coordinator, NeHA, Cyprus*

Opening Address: **Oliver Varhelyi**, *European Commissioner for Health and Food Safety (TBC)*

Keynote Speeches

- **Fulvia Raffaelli**, *Head of Unit, 'Digital Health' Unit, DG SANTE*
- **HaDEA supporting the implementation of the European Health Data Space – Chrysoula Lentzou**, *HaDEA - EU4Health Program*

09:00-11:00

High Level Panel Discussion

EHDS Opportunities and Challenges

Moderator: **Alexander Berler**, *HL7 Hellas*

Panellists:

European Commissioner for Health and Food Safety, **Jürgen Brandstätter** (Austria), **Giorgio Cangiolli** (Italy), **Fidelia Cascini** (Italy), **Eamonn Coyne** (Ireland), **Hela Ghariani** (France), **Henrique Martins** (Portugal), **Janos Vincze** (Hungary), **Euchar Sultana** (Malta)

11:00-11:30

COFFEE BREAK

OPEN

Healthcare professionals Friendly EHRs. How can we engage HCPs more efficiently?

Xt-EHR vision on an HCP friendly EHR considering efficient clinical modelling (open EHR or other) and vendor friendly open interoperability architecture (IHE profiles or other).

This session will enlarge the vision of the European Health Union focusing on investigating how to create an efficient EHR that will incorporate the necessary functionality on one hand but also rely on open standards for clinical modelling and interoperability. Xt-EHR will propose recommendations and guidelines for the implementation of EHDS compliant EHR systems across Europe based on EHDS Regulation implementation Acts. The session will focus on the Cyprus EHR developments, will integrate the contribution of clinical modelling and interoperability non-for-profit representatives and will close with a discussion panel.

Session Chair: **Christos N. Schizas**, *Xt-EHR coordinator*

Keynote Speech

Clinical Routines and basic concepts of the Electronic Healthcare Record - Theodoros Kyprianou, *Project Lead - Structure, content and functionality of the National Electronic Health Record, NeHA, Cyprus*

11:30-13:00

Position presentations

- **Jordi Piera Jimenez** - Spain
- Effective interoperability to ensure clinical pathways for EHDS compliant EHR systems - **Claudio Saccavini**, *IHE*

Panel Discussion

Moderator: **Theodoros Kyprianou**, *NeHA, Cyprus*

Rapporteur : **Alexander Berler**, *HL7 Hellas*

Panellists:

Fidelia Cascini (Italy), **Jordi Piera-Jimenez** (Spain), **Zoltan Lantos** (Hungary), **Henrique Martins** (Portugal), **Constantinos S. Pattichis** (Cyprus), **Esther Peelen** (Netherlands), **Claudio Saccavini** (Italy)

Organised by Xt-EHR

13:00-14:00

LUNCH BREAK

OPEN**EHDS Healthcare Provider Forum**

Xt-EHR mandate is to support the proper implementation of the new EHDS Regulation for primary use of data. In this context, it is crucial that the projects recommendations consider the views of all stakeholders. The forum will focus on incentives and practical user experience guidelines that will enable healthcare professionals to actively contribute to the adoption of the EHDS regulation. How to create smarter and user-friendly user interfaces to simplify the work of the healthcare professionals? How should we integrate new technologies to support the work of healthcare professionals while ensuring compliance with the new regulation?

Session Chair: **Theodoros Kyprianou**, *NeHA, Cyprus*

14:00-15:30

Keynote Speeches

- **Marios Themistokleous**, *Deputy Minister of Health, Hellenic Republic*
- **Constantinos S. Pattichis**, *President of National eHealth Authority – Cyprus*

Introductory Statements

- **Eleftherios Thireos**, *President, Athens Medical Society, Greece*
- **Petros Agathangelou**, *President, Cyprus Medical Association*

Panel Discussion

Moderator: **Theodoros Kyprianou**

Panellists:

Petros Agathangelou, **Constantinos S. Pattichis**, **Christos N. Schizas**, **Marios Themistokleous**, **Eleftherios Thireos**, Standing Committee of European Doctors CPME representative

15:30-16:00

COFFEE BREAK**OPEN****EHDS Patient Forum**

A session focussed on integrating a unified patient voice concerning handling of their patient rights as defined in the new EHDS regulation | Concepts such as co-creation, patient education, and marketplaces of digital tools for patients will be discussed | Patient organisations from Cyprus, Greece and Europe will contribute.

Session Chair: **Alexander Berler**, *HL7 Hellas*

Keynote Speech

Promoting Patient Rights via the Greek Prevention Program - Irene Agapidaki, *Alternate Minister of Health, Hellenic Republic*

16:00-18:00

Speakers:

- Patients' rights reflected in the EHDS Regulation, **Andreas Christodoulou**, *NEHA Cyprus*
- EHDS Regulation interpreting Patient rights, **Petra Wilson**, *HIMSS Europe*
- Patients' participation and expectation from the EHDS Regulation, **Dimitris Kontopidis**, *Greek Patients Association*
- The Cyprus eHealth Law and the EHDS Regulation, **Marios Kouloumas**, *Cyprus Federation of Patients' Associations (CyFPA)*

Panel Discussion

Irene Agapidaki, **George Kapetanakis** (ELLOK), **Vasileios Karatzias** (RDG), **Dimitris Kontopidis** (GPA), **Marios Kouloumas** (CyFPA), **Stelios Kypouropoulos** (Former MEP), **Petra Wilson**, *HIMSS Europe*

Organised by Xt-EHR in collaboration with Patient Associations

19:30

NETWORKING**Social / Networking Event****TUESDAY 28.01 | TEMPLARS HALL**

TUESDAY 28.01 | ABBEY HALL

<p>11:30-13:00</p>	<p>EDUCATION Aligning future healthcare workforce skills with the demands of EHDS Capacity Building / Education Track</p> <p>Join us for an interactive workshop focused on aligning future healthcare workforce skills with the evolving demands of the European Health Data Space. This session invites participants to explore and refine key learning objectives that address advanced digital skills, such as data management, AI, sustainability, and cybersecurity, essential for a data-driven, sustainable healthcare system. Through collaborative dialogue, the workshop aims to shape education and training strategies that empower healthcare professionals with the competencies needed to thrive in a rapidly transforming digital health landscape.</p> <p>Speakers:</p> <ul style="list-style-type: none"> ▪ Minna Isomursu, University of Oulu ▪ Martin Hayes, University of Limerick ▪ Guido Giunti, Trinity College Dublin <p><i>Organised by SUSA project</i></p>
<p>13:00-14:00</p>	<p>LUNCH BREAK</p>

OPEN

COMFORTage: Secondary use of real-world data towards the research and development of scientific breakthroughs in the field of dementia

COMFORTage is a joint effort of medical experts, social scientists and humanists, technical experts, Digital Innovation Hubs (DIHs) and Living Labs (LLs) to establish a pan European framework for Community-based, Integrated and People-Centric prevention, monitoring and progression managing solutions for dementia and frailty. This session will attempt to highlight the main innovations of the COMFORTage project, thus providing a look into the future of dementia and frailty care. Concepts such as citizen science, Living Labs, Digital Innovation Hubs, digital and health literacy, holistic health records, digital twins and AI will be presented. A panel discussion will follow to explore the opportunities and challenges for building an “Ageing-EHDS”, thus incorporating EHDS in dementia and frailty research.

Moderator: **Panagiotis Bamidis**, AUTH

14:00-15:30

Key Address: **Stelios Kypouropoulos**, Psychiatrist, Former MEP

Speakers:

- **Nikolaos Scarmeas**, NTUA
- **George Manias**, UNIPI
- **Athos Antoniadis**, Stremble Ventures
- **Antonis Billis**, AUTH
- **Despoina Mantziari**, AUTH
- **Pavlos Kranas**, Leanxcale SL
- **Stelios Kokkas**, CERTH

Panel Discussion

Athos Antoniadis (Stremble Ventures), **Panagiotis Bamidis** (AUTH) **Maria Karagianni** (AUTH), **Paris Laras** (Maggioli R&D Hub, Greece), **Konstantinos Votis** (CERTH) **Stelios Kokkas** (CERTH)

Organised by the Aristotle University of Thessaloniki & the University of Piraeus

15:30-16:00

COFFEE BREAK

EDUCATION

The use of the Patient Summary | Capacity Building / Education Track

A patient summary can have a key role in informing health care professionals on their first encounter with a patient. Different contexts may require slightly different patient summaries. However, there is a large overlap across the different summaries. These common elements, as well as commonly found sections are brought together in the EN ISO International Patient Summary standard and its accompanying HL7 IPS implementation guides, SNOMED IPS Terminology and IHE IPS and sIPS profiles. The IPS has inspired a lot of countries to pursue their national Patient Summary projects. This session will not only focus on the various specifications and implementations but also cover research on the clinical value of patient summaries.

16:00-18:00

Organised by CEN/TC 251 --**Robert A. Stegwee**

INTEROP LAB

Gravitate-Health: Empowering Europeans with Digital Innovations for Personalized Health Management & Cross-Border Care | EHDS Experimentation Lab [I]

The session will highlight Gravitate-Health promise, maturity and recent development, discuss possibilities to contribute to the **Gravitate-Health Interoperability use case** in the upcoming HIMSS25 Europe Interoperability Showcase in Paris, on 10-12 June 2025.

Moderator: Lina Nikolopoulou

Speakers

- The Gravitate-Health promise: a concise overview of Gravitate-Health, **Lina Nikolopoulou**, MINDVIEW
- Gravitate-Health in the context of the evolving European landscape and the EHDS Regulation, **Petra Wilson**, HIMSS Europe
- Gravitate-Health: Exploring the technical development, scenarios, and cross-border interoperability, **Lene Lunde**, University of Oslo
- Presentation of the Interoperability Showcase at the upcoming HIMSS25 European Conference, **Mariam Shokralla**, HIMSS Europe and **Claudio Saccavini**, IHE

11:30-13:00

Q&A and wrap up

Organised by Gravitate-Health

The **EHDS Interoperability Experimentation Lab** is a set of interactive sessions to educate and inform stakeholders about current work, initiatives and work related to the developments in support of the EHDS regulation. The Lab intends to trigger the interest of technical personnel, technical decision makers, product owners, academic research, Healthcare Provider CIOs, Chief Medical Information Officers and other executives, programmers and information architects. The scope of the Lab is to inform stakeholders about current activities, set of specifications, tools and other interoperability artifacts that can promote the adoption of the basic concepts under the EHDS regulation. The EHDS Experimentation Lab will focus on use cases that will embrace the use of the European Electronic Health Record exchange Format (EEHRxF) & enforce the implementation of the EHDS regulation. This laboratory will incorporate testing tools to practice with currently available specifications under development, a technical help desk to assist vendors and participants to understand the specifications, hackathons and other hands-on sessions on specific use cases and many more. - - *Supported by Xt-EHR, Gravitate-Health, IHE Europe, IHE Catalyst, xShare, HL7 Hellas*

13:00-14:00

LUNCH BREAK

INTEROP LAB

xShare Yellow button Session | EHDS Experimentation Lab [II]

The session will focus on presenting the technical work currently under development within the xShare project, especially the xShare Yellow button implementation and the Yellow button Label.

Session Chairs: **Maria Marques**, UNINOVA & **Nenad Zivkovic**, Gnomon Informatics

Speakers:

- Presenting the Yellow button use cases - **Fábio Januário**, UNINOVA
- Presenting the Yellow button HL7 FHIR Implementation Guide - **Fábio Januário**, UNINOVA
- Yellow Button Architecture and Toolkit - **Nenad Zivkovic**, Gnomon Informatics
- The Greek Adoption site demonstration - **Argiris Gkogkidis**, Gnomon Informatics, **George Dafoulas**, UTH
- the xShare Label Vision - **Nathan Carvalho**
- How to join xShare? Open Call and the Hub - **Robert Stegwee**, CEN/TC 251

14:00-15:30

Organised by Uninova and Gnomon Informatics, xShare project

15:30-16:00

COFFEE BREAK

INTEROP LAB

HL7 Hellas FHIR CORE Hands-on Session | EHDS Experimentation Lab [III]

16:00-18:00

The session will focus on providing tips and guidelines on how to create HL7 FHIR implementation guides in the era of the European Health Data Space (EHDS).

Speakers:

- Implementing HL7 FHIR Specifications guidelines, **Nikos Kyriakoulakos**, *HL7 Hellas*

Learning by example

- The xShare Hub – **Giorgio Cangioli**, *HL7 Italy*
- The Greek Oncology Program – **Nenad Zivkovic**, *Gnomon Informatics*
- The EEHRxF FHIR IG – **Hynek Kruzik**, *Vysočina Region, Czech Republic*

Q&A and Wrap up

Organised by HL7 Hellas

TUESDAY 28.01 | CONFERENCE 1 HALL

EDUCATION

Advancing Digital Health Education: Building a European Network for Interoperability | Capacity Building / Education Track

14:00-15:30

This workshop will discuss strategies for developing an educational network aimed at equipping professionals and stakeholders with the skills to navigate the evolving digital health landscape. Through this interactive session, expert talks, and stakeholder discussions, participants will gain insights into fostering collaboration and capacity building in digital health education. Whether you are a policymaker, healthcare professional, academic, or technology innovator, this session is your chance to contribute to shaping the future of interoperable health education in Europe.

Speakers:

Henrique Martins (Portugal), **John Mantas**,(Greece), **Asta Pundziene**, (Lithuania), **Alexander Berler** (Greece), **Juliana Pereira de Sá** (Portugal), **Catarina Camarate** (Portugal)

Organised by XiA Project

OPEN

EHDS Industry Forum [I]

ADHW 2025 in collaboration with industry associations, and the support of Xt-EHR, IHE, HL7 Hellas, will discuss the EEHRxF specifications. An early version of the model for a self-conformity assessment scheme may be presented. A collaborative session to allow industry stakeholders and vendors to express their views for the adoption of the EHDS and help align the EHDS timeline with the capabilities and roadmaps of vendors. Vendor-driven panels will be organised by Digital Europe, Medtech, COCIR, IHE and other organisations. The objective is to elaborate and propose a commonly accepted approach on how the industry stakeholders can interact to ensure adoption of the EHDS regulation and the conformance to the EEHRxF specifications.

Session Chair: **Alexander Berler**, *HL7 Hellas*

09:00-11:00

Keynote Speeches

- **Demetris Papastergiou***, Minister of Digital Governance, Hellenic Republic - **Greece in the Era of the European Digital Single Market**
- **Kyriacos Hatzaras**, *DG-CNECT*

Speakers:

- Xt-EHR Challenges and different types of EHR systems - **Andreas Neocleous**, *NeHA, Cyprus* & **Juha Mykkänen**, *University of Eastern Finland*
- How can we align the Industry Digital Health Product Lifecycle with the EHDS Regulation implementation roadmap? - **Lapo Bertini**, *IHE International*
- The xShare Label concept - **Nathan Carvalho**, **Alexia Papadimitriou**, *DIGITALEUROPE*
- Opportunities and challenges from the implementation of the EHDS Regulation - **Annabel Seeböhm**, *COCIR*
- Opportunities and challenges from the implementation of the EHDS Regulation - **Verena Thaler**, *MedTech*

Wrap-up of propositions: **Alexander Berler**, Moderator

11:00-11:30

COFFEE BREAK

OPEN

EHDS Industry Forum [II]

- Panel Discussion: **European Digital Health Association**

Moderator: **Alexander Berler**, *HL7 Hellas*

Fighting Cancer by creating synergies in Europe

Receiving a timely cancer diagnosis and surviving the disease differs considerably across European countries due to inequalities in prevention, but also access to state-of-the-art diagnostics, treatments, and care. Cancer related funded joint actions (JA) aim at homogenising the landscape across EU and shaping policies that will promote improved cancer care and outcomes.

In this session, we bring together various EU-wide joint actions, as well as different research projects using emerging technologies in the fight against cancer.

Moderator: **Antonis Billis**, AUTH

Welcome Addresses

- **Vasilis Koutsouris**, Office Director of General Secretariat of Strategic Planning, Greek Ministry of Health
- **Dimitris Tsalikakis**, Director of the 3rd Regional Health Authority, Greece
- **Christos Schizas**, Professor of Computational Intelligence, National eHealth Authority, Cyprus

14:00-15:30

Joint Actions related to cancer

- The eCAN joint action: results and education capacity - **Stergiani Spyrou**, 3rd Regional Health Authority Greece & **Despoina Mantziari**, AUTH
- eCAN joint action telehealth applications - **Efthymoulos Kyriacou**, Cyprus University of Technology
- European network of Comprehensive Cancer Centers – EUnetCCC - **Anastasia Balasopoulou**, 1st Regional Health Authority Greece
- Cancer Inequalities Registry: the ORION Joint Action - **Dimitris Tsikerdis**, IDIKA S.A.
- Reducing Europe's cancer and NCD burden through coordinated strategies on health determinants: the JAPreventNCD joint action - **Maria Davis**, IDIKA S.A.

Research Projects related to cancer

- Creating robust and trustworthy multimodal AI for urologic cancers: the COMFORT project - **Antonis Billis**, AUTH
- Evidence-based Participatory Decision Making for colorectal cancer prevention: the ONCODIR project - **Athanasios Mavropoulos**, CERTH

15:30-16:00

COFFEE BREAK

OPEN

Digital Transformation in Healthcare delivery

The workshop objective is to discuss the opportunities created by digital technologies for delivering better healthcare services to the citizens, and highlight the challenges implicated in this process and the framework that is required to assure the minimisation of potential risks. Results obtained in the scope of different EU projects, spanning across all areas of healthcare, from prevention and lifestyle to diagnosis, follow-up, treatment and care provision will be presented and discussed. In addition, the way the work developed is aligning with the upcoming EHDS will be discussed as well as standardisation aspects and health data sharing.

The projects include **BioStreams** —for childhood obesity prevention and follow up; **SMARTBEAR** —for health monitoring, prevention and disease management of the elderly population; **DIOPTRA** —for colorectal cancer prevention and early diagnosis; **PHOREVER** —for stroke and pancreatic cancer detection; **RETENTION** — addressing heart failure monitoring outside hospitals, and **TeleRehaB DSS** —for remote rehabilitation of balance disorders and **xShare** —addressing portability and sharing of health data.

16:00-18:00

Moderator: **Maria Marques**, UNINOVA

Speakers:

- BioStreams project - **Eleftheria Vellidou**, ICCS
- PHOREVER project - **Vassilis Katsigiannis**, ICCS
- RETENTION project - **Maria Haritou**, ICCS
- TeleRehaB DSS project - **George Matsopoulos**, NTUA
- DIOPTRA project - **Stavros Miloulis**, ICCS
- Smart Bear - **Carlos Agostinho**, UNINOVA
- XShare - **Fábio Januário**, UNINOVA

Organised by UNINOVA

19:30

NETWORKING

Social / Networking Event

OPEN

SMEs and Startups - Success Stories and Pathways to Growth

SMEs are the driving force behind digital health innovation. This session is designed as an interactive training and inspiration platform, showcasing success stories of SMEs and startups that have leveraged digital health services to scale and deliver impact. Participants will hear firsthand from SMEs that have received support through programs such as smartHEALTH (EDIH) and members of the Hellenic Digital Health Cluster (HDHC). These stories will illustrate practical pathways to overcoming barriers, achieving growth, and creating value in the healthcare sector.

Attendees will leave with actionable knowledge on accessing support services, building partnerships, and accelerating their digital health solutions to market.

Moderator: **Maria Makridaki**, FORTH

14:00-15:30

Speakers:

- Digital Strategy for SMEs: Challenges, Opportunities and Tools – **Athanasios Valiakos**, *Digital Strategy Department, Ministry of Digital Governance*
- smartHEALTH European Digital Innovation Hub – **Dimitris Plexousakis**, *Institute of Computer Science, FORTH*
- Driving Innovation in Digital Health: Entrepreneurial Opportunities and Growth Needs – **Dimitrios Katehakis**, *Hellenic Digital Health Cluster*

Panelists:

Steven Gavas (SOFMEDICA), **Stamatiki Kritas** (Council of European BioRegions & HBIO), **George Loudos** (BIOEMTECH), **George Nikolaidis** (ERGOBYTE), **Thanos Vidakis** (AINIGMA Technologies)

Organised by smartHEALTH (European Digital Innovation Hub for Smart Health: Precision Medicine and Innovative e-Health Services) and HDHC (Hellenic Digital Health Cluster)

15:30-16:00

Healthcare Providers - Navigating Digital Transformation

The digital transformation of healthcare providers is critical for improving patient outcomes, operational efficiency, and system-wide sustainability. This session aims to explore the unique challenges and needs of healthcare providers in adopting digital solutions while highlighting their transformation journey. Experts and representatives from healthcare organizations and related stakeholders will share insights into their priorities, obstacles, and pathways to digital innovation, including real-world examples of implementing advanced technologies such as Artificial Intelligence tools, telemedicine platforms, advanced imaging in diagnostics and empowered self-management.

Attendees will gain a comprehensive understanding of how digital health tools can address sector-specific needs and drive forward the healthcare ecosystem's modernization.

16:00-18:00

Moderator:

Haris Papageorgiou, ATHENA RC

Keynote Speech:

Rethinking Healthcare in Europe: Advancing Preventive, Person-Centered, and Collaborative Care - **Angelina Kouroubali**, *Reference Site Collaborative Network (RSCN)*

Speakers - Panellists:

Maria Bigaki (Papageorgiou General Hospital), **Magda Chatzikou** (PharmEcons Easy Access), **Dimitris Kontopidis** (Humane), **Pantelis Natsiavas** (Institute of Applied Biosciences, CERTH), **Stathis Velivasakis** (AFFIDEA)

Organised by smartHEALTH (European Digital Innovation Hub for Smart Health: Precision Medicine and Innovative e-Health Services) and HDHC (Hellenic Digital Health Cluster)

EDUCATION

Medical Imaging [I] | Capacity Building /Education Track

Main trainers: **Charles Parisot** and **Munif Mohammed Eid**

This session will provide an overview of the state-of-the-art in national and cross-border exchange of imaging studies and of imaging reports. The definition of the corresponding use case will be covered starting from the European eHealth Network Guideline on exchange of imaging studies and imaging reports. Additionally, the reason why such a guideline was adopted as relevant across the world and aligning with most deployment in operations will be explained.

The second part of the session relies on the IHE Multi-Country Working Group (MCWG) on Imaging recommendations that ensure the deployment of an effective and consistent interoperability resulting from the collaboration of 11 countries. The IHE Profiles and standards selected by these recommendations will be discussed, including the use of HL7 FHIR and DICOM WEB Services.

Finally (see *Medical Imaging II*), three large scale real-world deployment will be presented: The French national imaging DRIM-M project, the imaging sharing deployments across the Saudi Arabia public hospitals and the future MyHealth@EU cross-border exchanger of images. Through these examples, concrete challenges will be addressed with contribution from the audience.

14:00-15:30

Agenda

- Welcome - **Alexander Berler** (IHE Catalyst)
- Imaging Information Exchange Use Case – **Charles Parisot** (IHE Catalyst). Scope and focus of the European eHealth Network Guideline on exchange of imaging studies and imaging reports
- Questions and Answers

The contribution of the IHE Multi-Country Working Group (MCWG) on Imaging

- Recommendations on profile and standards – **Charles Parisot** (IHE Catalyst)
- Recommendations on Metadata and linkages – **Charles Parisot**
- Recommendations on Imaging Study Manifests – **Rick Busbridge** (NICTIZ Netherlands)
- Recommendations on Significant Images – **Rick Busbridge**
- On-going Focus Groups – **Charles Parisot**
- Relationships with XpanDH, Xt-EHR and MyHealth@EU – **Charles Parisot**
- Questions and Answers

Organised by IHE Catalyst and IHE Europe

15:30-16:00

COFFEE BREAK

EDUCATION

Medical Imaging [II] | Capacity Building /Education Track

Agenda

- The French national imaging DRIM-M project – **Gwenaelle Fleury** (ANS, France)
- The imaging sharing deployments across the Saudi Arabia public hospitals – **Munif Mohammed Eid** (Saudi Arabia Ministry of Health)
- The future MyHealth@EU cross-border exchanger of images – **Rick Busbridge** (NICTIZ Netherlands)
- Is Regional/National/Cross-border Medical Imaging on the right track?
Open discussion chaired by **Sofia Franconi** (IHE-Europe)

16:00-18:00

Q&A time allowed after each presentation

Organised by IHE Catalyst and IHE Europe

WEDNESDAY 29.01 | KALLIRHOE HALL

14:00-15:30	<p>INTEROP LAB EEHRxF Ask the Expert Session EHDS Experimentation Lab [IV]</p> <p>This session will enable programmers, information architects, innovators and other stakeholders to have a preview on the EEHRxF specification under development for the EHDS regulation adoption.</p> <p>Speakers:</p> <ul style="list-style-type: none">▪ Short Presentations: Basic information and cheat-sheets▪ Xt-EHR short overview, Andreas Neocleous, <i>NeHA, Cyprus</i>▪ Patient Summary, ePrescription and eDispensation, Alberto Zanini & Marcello Melgara, <i>ARIA S.p.A.</i>▪ Discharge Letters, Laboratory Results, Medical Imaging, Hynek Kruzik, <i>Vysočina Region, Czech Republic</i>▪ Conformity Assessment and Profiling, Juha Mykkanen, <i>University of Eastern Finland</i>, Haralampos Karanikas, <i>UTH</i>, Alexander Berler, <i>HL7 Hellas</i>▪ The view of standardization, Giorgio Cangioli, <i>HL7 Italy</i>, Jurgen Brandstaetter, <i>HL7 Austria</i> <p>Q&A session</p> <p><i>Organised by Xt-EHR</i></p>
